MILLONOEL RODRIGUEZ

Software Engineer | Watsonville, California

831-353-4027 • millogotwork@gmail.com • linkedin.com/in/millonoelrodriguez • github.com/mllloo

PROFESSIONAL SUMMARY

Software developer and Software Engineering student graduating in May 2027, experienced in web applications, digital content, web and social media management, and client-focused business operations. Combines technical problem-solving with design, communication, and entrepreneurship to create work that helps people reach, inspire, and connect.

EDUCATION

California State University, Monterey Bay — Expected May 2027

Bachelor of Science in Software Engineering

EXPERIENCE

Digital NEST | Software Design Engineer Associate (Internship) — Aug 2026 - Present

- Develop and maintain responsive websites and software solutions for real-world clients using React, Node.js, SQL, WordPress, PHP, HTML, CSS, and JavaScript.
- Troubleshoot issues, implement bug fixes, update content, integrate third-party tools and plugins, optimize performance and accessibility, and collaborate with developers, designers, and project managers using Asana and Salesforce.

BrincaJumpers | Owner — Mar 2024 - Present

- Founded and launched a small event-rental business from the ground up, generating consistent local clientele and repeat bookings.
- Designed branded marketing materials, including a custom logo and graphics, establishing a recognizable visual identity.
- Streamlined client communication, scheduling, and day-of operations to reduce logistical errors and improve customer satisfaction.

Raíces y Cariños | Social Media and Web Manager Intern — Oct 2024 - Jun 2025

- Audited and restructured website content for clarity and accessibility, resulting in a more navigable user experience.
- Redesigned page layouts to improve readability and visual flow, contributing to longer on-site engagement.
- Produced consistent social media content aligned with the organization’s mission, supporting audience engagement and outreach.

Sherwin-Williams | Store Associate — Dec 2023 - Present

- Provide attentive customer service in a high-traffic retail environment and resolve product questions efficiently.
- Guide customers through product selection and troubleshooting, supporting confident purchasing decisions and repeat visits.
- Maintain organized shelving and inventory systems to support smooth daily operations.

SELECTED PROJECTS

Millo Marketing & Logistics | Marketing, Logistics, Business Operations

- Founded and operate a marketing and logistics service serving 150+ companies.
- Coordinate client needs, service delivery, scheduling, and communication across a growing customer base.

Famous Quotes Web App | HTML, CSS, JavaScript

- Built an interactive web app powered by a public API, enabling users to browse and discover quotes across categories.
- Integrated real-time translation support for multiple languages and implemented input validation with live UI updates.

Business Branding - BrincaJumpers | Branding and Graphic Design

- Designed a logo and marketing visuals from scratch, giving BrincaJumpers a professional identity.
